

Developer's Guide:

Software: Visual Studio 2022.

- Download source code via link: <https://github.com/Moxxi123/OnlineShop4DVDS>

Database:

- Microsoft SQL Server Management Studio 18 (SQL Server 2019).
- Run a database: open file ProjectSem3.sql and Execute it to get a database first

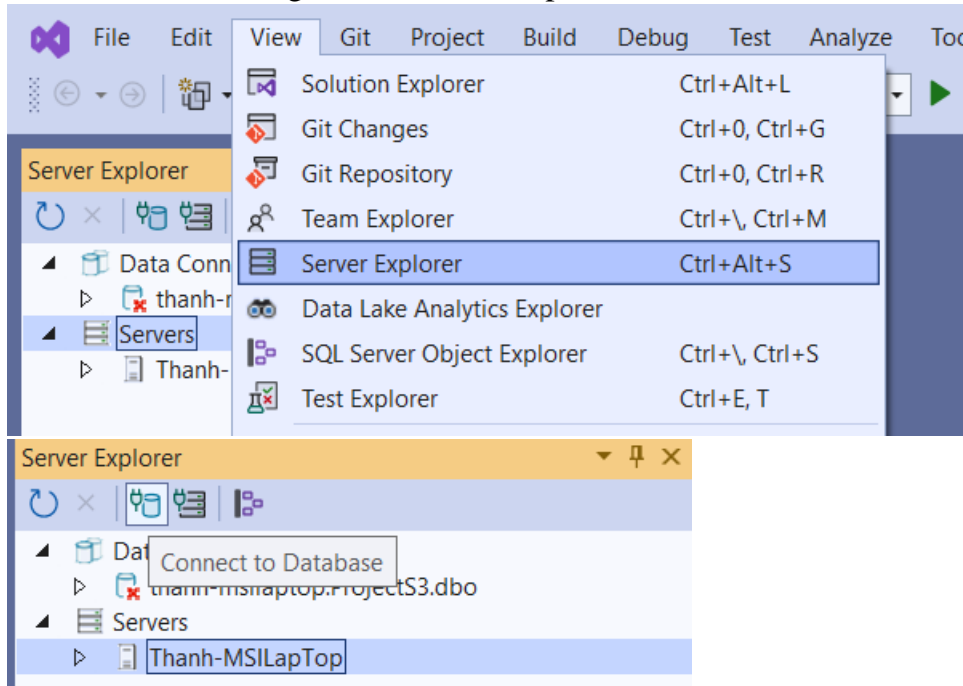

Run the project:

- Extract file. Open folder and run file OnlineShop4DVDS.sln by Visual Studio 2022

Connect SQL Server:

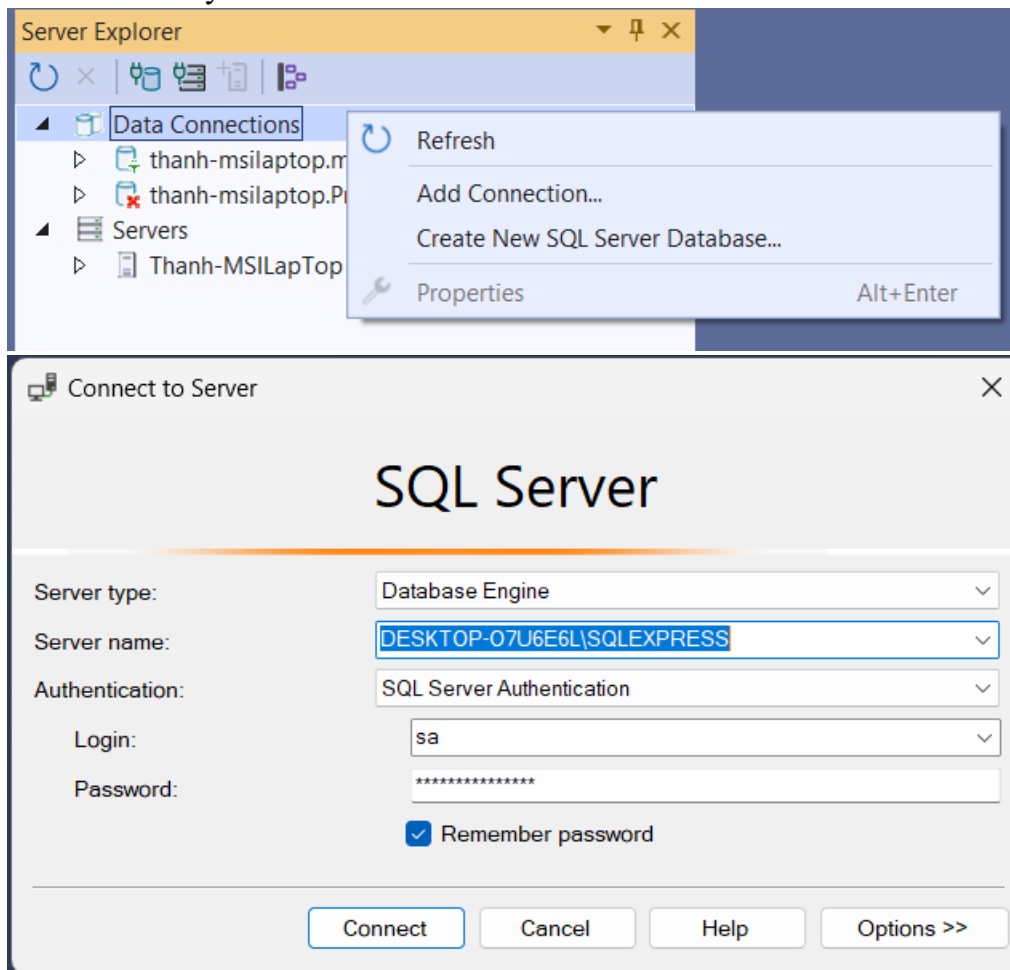

Case 1:

- Get connection string: View/Server Explorer. Connect to dataabase

- Find and search your server database in SQL Server Management

- After connect your server database. Choose add connection...

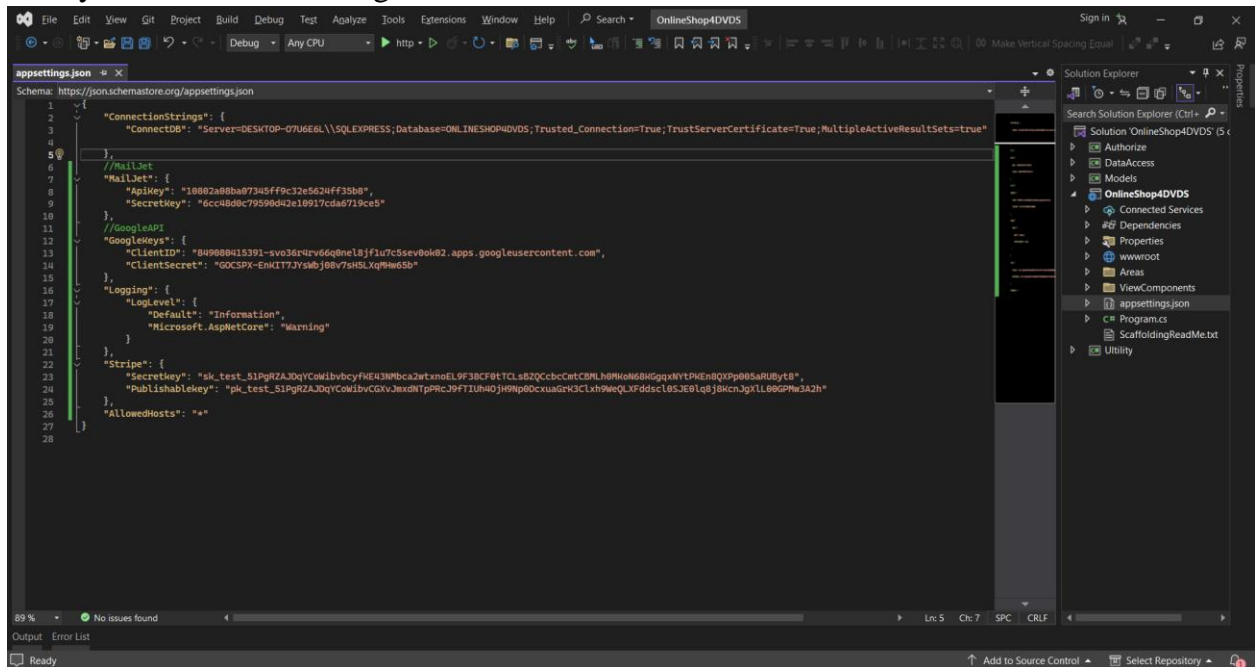

- Add and test your connection

The screenshot shows the 'Add Connection' dialog box with the following fields and controls:

- Data source:** A dropdown menu showing 'Microsoft SQL Server (SqlClient)' with a 'Change...' button to its right.
- Server name:** A text input field with a dropdown arrow, a 'Refresh' button to its right, and a dropdown list showing a list of server names.
- Log on to the server:** A section containing:
 - Authentication:** A dropdown menu showing 'Windows Authentication'.
 - User name:** A text input field.
 - Password:** A text input field.
 - Encrypt:** A dropdown menu showing 'Mandatory (True)'.
 - ☐ Trust Server Certificate
 - ☐ Save my password
- Connect to a database:** A section containing:
 - ☒ Select or enter a database name: A dropdown menu.
 - ☐ Attach a database file: A text input field with a 'Browse...' button to its right.
 - Logical name:** A text input field.
- Advanced...** A button to expand advanced options.
- Test Connection**, **OK**, and **Cancel** buttons at the bottom.

- Find your connection string here

Case 2:

- Just change your connection string (server, database, user id, password,...) like this form

```

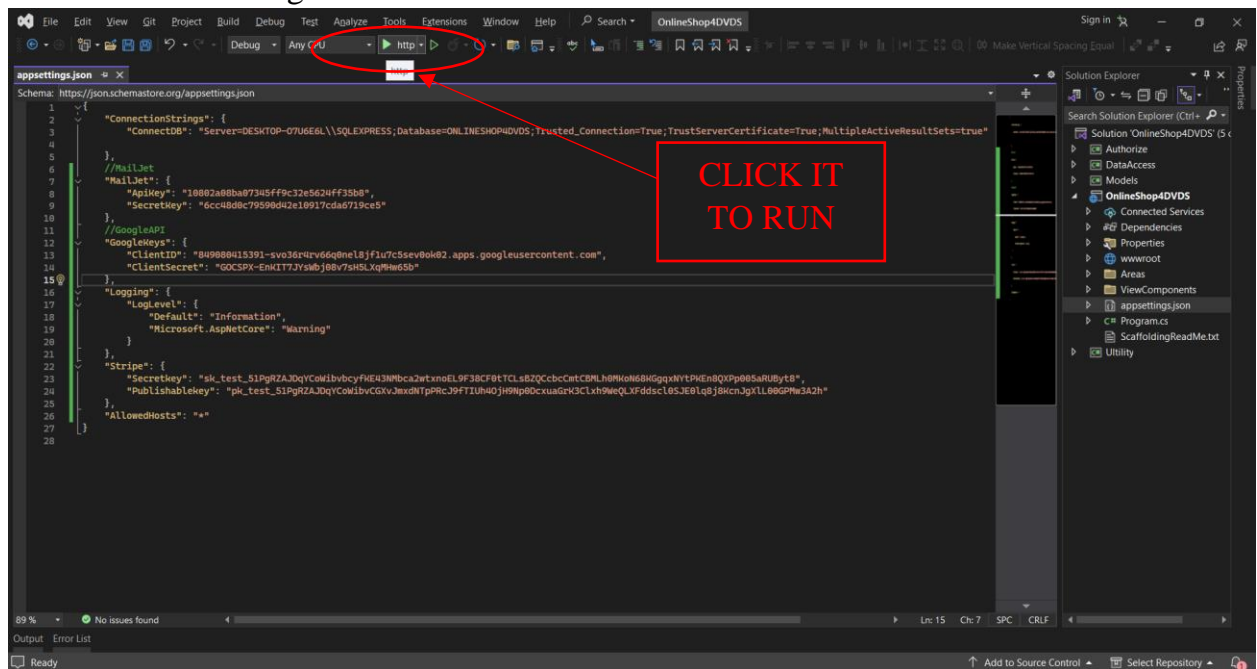

"ConnectionStrings": {
  "ConnectDB": "Server=DESKTOP-07U6E6L\\SQL EXPRESS;Database=ONLINESHOP4DVDS;Trusted_Connection=True;TrustServerCertificate=True;MultipleActiveResultSets=true"},

```

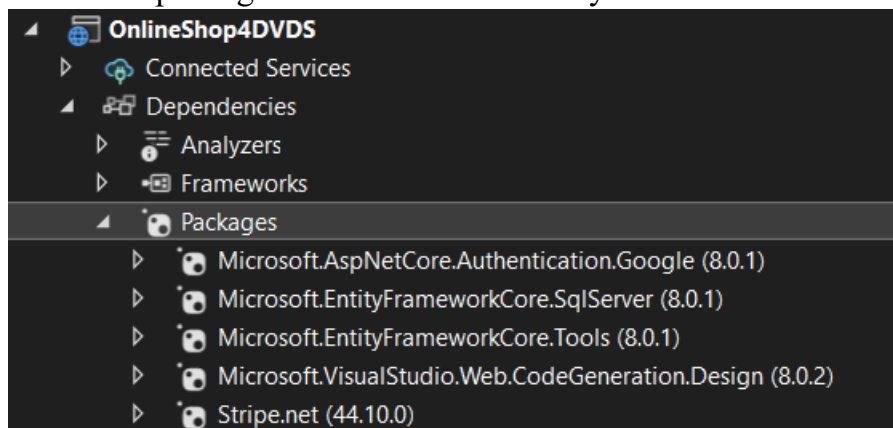

After all

- Change your **ConnectionStrings** in appsetting.json in Folder: ONLINESHOP4DVDS/source code/ONLINESHOP4DVDS

- Hit run button have green color

- Check the package version if it's necessary

After that, you can see the Home page of the website like this
